Discover the CONFERENCE concept and optimize the space of your suites and rooms to dynamize your customer's experience in your establishment.

Our concept is based on the development of a unique, patented and self-supporting mechanism. It can be adapted to any bed style and meets the highest requirements in terms of safety and comfort.

Available in manual or electric version, our folding bed mechanism has been tested by an accredited organization.

Wallbed

The wallbed is a bed design that can be transformed into an intelligent piece of furniture, making it possible to save space easily and comfortably. The Lift Security brand wallbed offers very comfortable bedding while retaining many design possibilities for your space. No fastening inside the cabinet is needed, which leaves your imagination free to create your own living space. Thanks to our diverse product range, you will necessarily find what you need to design and optimize your sleeping space, whether you are in the field of hotels, holiday homes, bed and breakfast rentals or simply for a personal application.

Who are we ?

The company Revol Lits Escamotables located in Saint Clair in Ardèche (07) specializes in metalworking. As a manufacturer of retractable LiftSecurity mechanisms, SRLE also offers the possibility of a complete set called CONFERENCE. This concept is composed of the Lift Security mechanism, cabinet, bedding and sofa as well as the mattress and also proposes additional furniture for the success of your conferences.

Manual or Electric

Our range is available in manual or electric Hybrid mechanisms, allowing easy and safe handling of the concept while keeping a comfortable sleeping area.

You will have the possibility to choose solutions ranging from a single bed with a width of 80 cm to a king size bed of 200*200cm.

Easy installation

Very explicit assembly instructions are supplied with every mechanism. Installation by a professional guarantees the quality and the safety of your wallbed.

Design and esthetics

No constraints or limitations on the creation of furniture for designers, architects and interior designers. With LiftSecurity technology, you can offer your customers a bedside furniture design according to their needs.

Our mechanisms are designed so that you can express your talent with minimum constraints.

Conference®

▶▶ LiftSecurity mechanisms are
Guaranteed for 10 years

furnish without moving

Move in without moving. The Conference concept allows you to transform a room into a work space in less than 15 minutes by one person. Indeed, the convertible table and the chair furniture allow your establishment the equipment necessary for the development of a **meeting room** in a bedroom. In full security, your establishment will now be able to rent its rooms day and night.

Thanks to our concept, your hotel will now have the possibility of offering modular rooms to welcome **professional clients** in order to offer conference services, meetings and to rent your rooms at night.

The advantages of our concept for hoteliers are multiple, in fact our concept allows you a **real economic model from 9am to 7pm/optimization of the turnover** without increasing your operating expenses / **space saving / diversification of the offer** by proposing two rentals in the same day.

In addition, our mechanics, manufactured in our factory, can accommodate **high quality** mattresses in order to satisfy the rigorous world of the hotel industry.

Choose the space saving option

The trend is today to **gain space** in residences, hotels, apartments and camping cars. Today we are looking for **space!** Revol Lits Escamotable offers you solutions to optimize and save this precious space.

With convertible mechanics, your bed is no longer a burden in the design of your home, in a closet, under a bar, on a wall or behind a sofa, the folding bed with its **self-supporting cradle** can be installed wherever you want. No limits, except fixing, in order to create furniture around the mechanics and to create rooms with **double functions**.

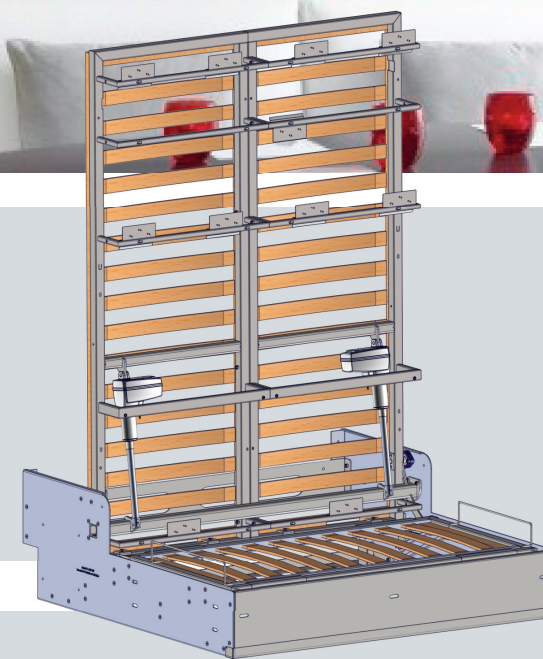

Transform your living room, dining room, bar, office into a bedroom, without any effort.
